

**The UK government** has an annual military budget of **£45,000,000,000**

...that's the 6th highest in the world

Spends 25 x more on researching weapons than renewable energy....

...including 5 x more on nuclear weapons alone

Spends £700million promoting arms sales to foreign buyers...

...regardless of human rights abuse records

Plans to renew Trident; utterly useless, totally immoral, £167billion...

...while cutting public services to the bone

It's time to  
shift priorities

**Spend it on  
sustainable  
security...**

**GDAMS**  
Global Day of Action  
on Military Spending

**Take action on 18<sup>th</sup> April!**

Cast your vote and support projects which make the world a safer place: redistribute the UK's £45bn military budget at
